

SCHEDULE OF COURSES FOR THE YEAR 2020

It's not just about training your workforce. It's about progress. Our training is guaranteed to help your business move forward with the right technology and the right skills. We offer everything from one or two-day seminars, short courses to exceptional, in-depth diplomas that will elevate the technical abilities of your team, aligning learning to key business objectives and close skills gaps in critical areas.

Achieve your goals with the right training to suit your learning needs

We are committed to helping you train a handful of employees or your entire organization on software essentials and advanced programming and productivity techniques. Our comprehensive training libraries cover topics related to graphics design, web and mobile app design, multimedia, software development & programming, as well as communication & office productivity tools.

Our flexible and scalable options are well-suited for companies of any size. We work with leading organizations to positively impact workforce productivity and efficiency. Our solutions are proven to increase utilization of software investments and provide the confidence to continue to invest as new software applications become available. Don't wait any longer to get the best training on the latest productivity and software tools provided by Adobe, Apple, and Microsoft. Take advantage of discounts on multi-user, and reap the benefits of having a well-trained staff.

Tailor-Made Courses

Over the years, Firstlincoln has consolidated its relationships with numerous key clients by assisting them in delivering in-house and tailor-made training courses. Such customised training solutions not only give a cost benefit to the respective client, but also provide the added advantage of adapting the course to address their specific requirements.

The vast amount of expertise possessed by Firstlincoln's training consultants puts us in an ideal position to develop almost any course in the fields of information technology. In order to ensure that the client derives maximum benefit from such training, our experts work closely with the organization to design a comprehensive package. Such packages include pre- and post-assessment of the capabilities, and more importantly the skills gap of the attendees, to guarantee the appropriate training solutions are devised.

COURSES FOR THE YEAR 2020

Office & Productivity

Become a well-rounded professional with courses that will help you navigate a successful path and become more productive in the work place. Firstlincoln does not only offers technical training to round out your skillset, but we also offer professional development and soft-skills training that's specific to technology pros to help you excel at work.

So, where are you headed?

Setting aside a week, or even a few days, to attend a conference is difficult, but preparing for the challenges and opportunities of tomorrow is time well spent. These events and trainings are an opportunity for you to step away from the day-to-day happenings of your organization and learn from the best—and we think your teams will thank you for it. So, check your calendar, clear your schedule and choose an event (or a few!) to invest in your growth as a leader.

Our Triple Guarantee

Please note that these events are by prior reservation only; all reservations are subject to confirmation by Firstlincoln Technologies. For more information and to request course brochure for any of the training please call **0806 693 8330**, **0908 166 9518**, or e-mail info@firstlincoln.net or visit www.firstlincoln.net to either download a reservation form or fill an online reservation form.

Information Technology (IT) Outsourcing

Delivering Value through People, Process and Technology

The world of work is changing faster than ever and the old rules of business are losing their relevance. No longer does money or technology guarantee growth and productivity. We have entered the Human Age, where people are the real agents of business success.

Those people- individuals with needed skills and experience - have become the scarcest business resources, especially in the field of Information Technology. We are Outsource Nigeria (ON™) and we bring you innovative workforce solutions that power your business success and make the seemingly impossible humanly possible.

Improve business performance by outsourcing your IT workforce to us. We offer a comprehensive selection of outsourced remote and in-office roles including Website developer, Software Engineers, Content managers, Customer Service Representatives, Graphics Designers, Administrative Assistants, Social Media Strategist, Database Admin, Mobile app developers and roles in many information technology specializations.

Our client roster is composed of a marquee list of industry leaders representing diverse verticals including Technology, Financial Services, Insurance, Communications, Manufacturing, Healthcare, Media & Entertainment and Real estate.

We work in partnership with discerning and prestigious clients, sourcing highly qualified and motivated individuals for roles in many information technology and administrative specializations, including:

- Website Developer
- Software Developer
- Web Application Developer
- Systems/Network Admin
- Customer Service Representatives
- Administrative Assistants
- Programmer
- Mobile App Developer
- IT Sales – Pre Sales Support
- Graphic Designer
- DBA
- Network Administration
- Technical Architect
- Hardware Engineer
- IT Trainer
- Data Entry Specialist
- Sales Rep.
- IT Manager
- Network Analyst
- Other IT & Telecoms specialization

How It Works

1. Provide us with a Job Description
2. We will select from our pool of trained talented professionals based on your requirements and outsource to you.
3. The candidate becomes a member of your in-house team working the same office hours as you or remotely from our office.
4. We handle regular performance reviews and all local administration inclusive of payroll, HR and operational software for your outsourced employee

For long term projects, Outsource Nigeria's BPO services consist of complete customer lifecycle management and back office lifecycle management services, involving the management of entire business processes for our clients. Our services are custom tailored to each client's business model and their end customer needs. Our expertise includes process expertise, analytical capabilities, consulting processes, technology expertise and operational insight arising from managing complex processes in diverse industries for numerous clients. ON™ believes that our experience minimizes the risks clients encounter when they outsource. We provide complex, end-to-end BPO services, all at a guaranteed savings for our clients.

With our Outsource services you can scale your organization quickly, easily and cost-effectively by leveraging on our fixed and variable length contracts to fill your permanent or short-term positions.

About Firstlincoln Technologies

We've come a long way over the last decade to become one of Nigeria's leading full-service digital agency. Our unwavering commitment to being at the forefront of technology and innovation has earned us a reputation as the 'go-to' agency for projects where a high level of technical expertise is required. We provide bespoke technological solutions using the best state of the art technologies for training, content management systems, e-commerce, mobile applications, SEO, cloud applications and integrated solutions - so we're able to match the best technology to the needs of your business.

Our team are split into technology-specific teams to ensure that each project and training gets the expertise and attention it needs, whilst we also have dedicated digital marketing and creative design teams. We work directly with clients, providing full-service digital

technology solutions and collaborate with advertising, branding and creative agencies in need of innovative and consultancy services in the field of information and communication technology.

Our outsourcing range of services was set up to disrupt and go above and beyond any other provider in the IT outsourcing industry. We act as a long-term strategic partner for clients and help them grow their business working as an extension of their in-house teams. We are totally committed to taking an open, honest and ethical approach to IT staff recruiting, being proactive and always aiming to be the best in the IT industry. Our people are knowledgeable, experienced, ready to listen and learn. Our culture is based on partnership – with our clients, our candidates and each other. And in everything we do, we're accountable, responsible and thoroughly professional.

Firstlincoln has built a nationwide consulting practice and provided services to many organizations from a variety of industries and several branches of the federal government.

We achieve success through the excellence of our people, the scale of our business that allows us to be flexible and creative, but also secure, and our complexity enables us to provide an enormous scope of solutions and readily available resources.

In recognition of our achievements in the Information Communication Technology sector in Nigeria, Firstlincoln was nominated for the **FUTURE AWARD** as the “Best Use of Technology” in 2008 and 2011. **Africa Communication Award** 2012 as the designer of “The Most Innovative Product”, **Nigeria Technology Awards** 2015, 2017, 2018 and recently we won the award for **Africa Quality Order of Merit Awards 2018** as **Africa Best in Class Quality ICT Consultancy Company of the Year**.

Firstlincoln's entire corporate mission is dedicated to the business of assisting clients in the design, implementation, and operation of business solutions that improve productivity and service delivery. Therefore, Information Technology related projects, training and consultancy services are not secondary to other Firstlincoln consultancy services. It is the central focus of our corporate experience and expertise.
